

GB-B series

ODF Unit Series

The series is specially designed for optic fiber communication equipment room. It has the function of cable fixation and protection, fiber cable terminating, wiring, distribution and protection of fiber cores and pigtails.

Metal plate unit with box structure, beautiful appearance;

19" standard installation, has good versatility;

Complete modular design and front operation. The unit box integrates fiber splicing, wiring, distribution, into one. Every single splice tray can be pulled out separately, enabling operations in or out of the box.
